

Tuesday 12th June, 2018

Dear Mr Stanley,

As per our previous conversation I can confirm that Boulcott's Farm Heritage Golf Club has recently planted Broadleaf Kapuka and Leyland Cypruss trees along the boundary of Harcourtweary Drive and the 3rd hole as indicated in your maps.

The clubs intension is to have these trees mature over the next 5 – 10 years and maintained to provide screening and protection of the golf course closely depicted in your simulations.

Boulcott's Farm Heritage Golf Club wishes you the best off success in the future.

Kindest Regards

James Harris
General Manager
